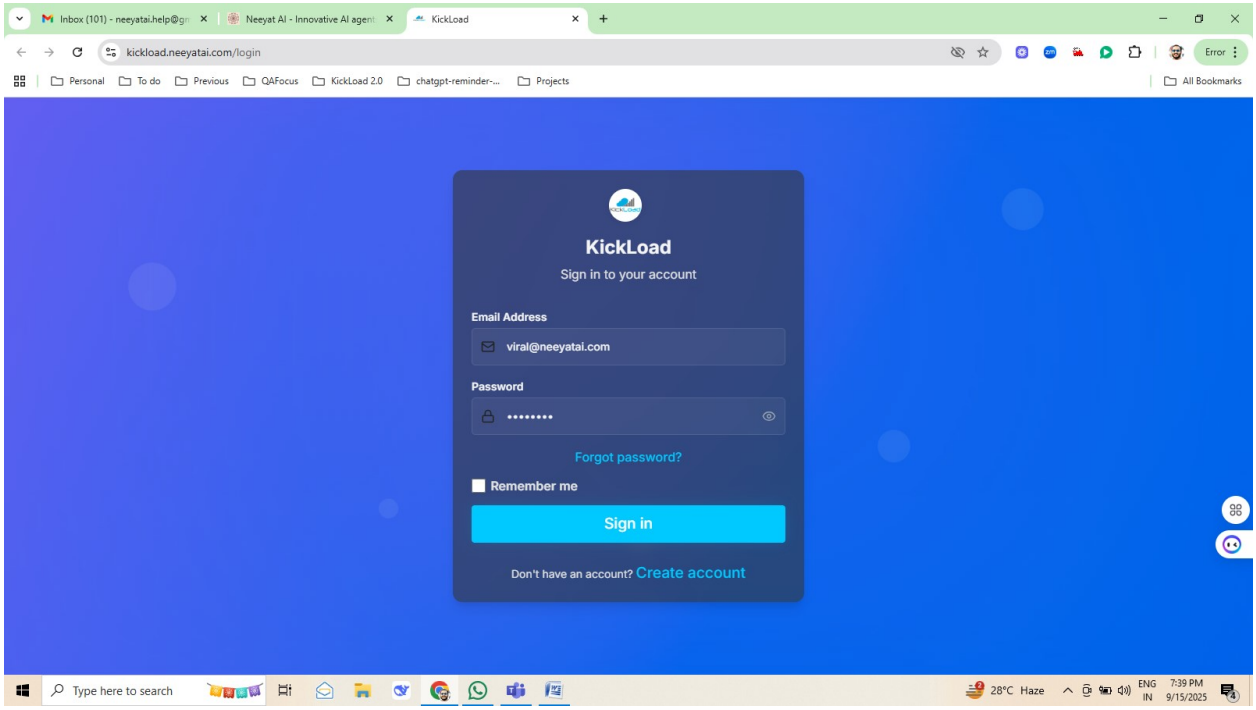
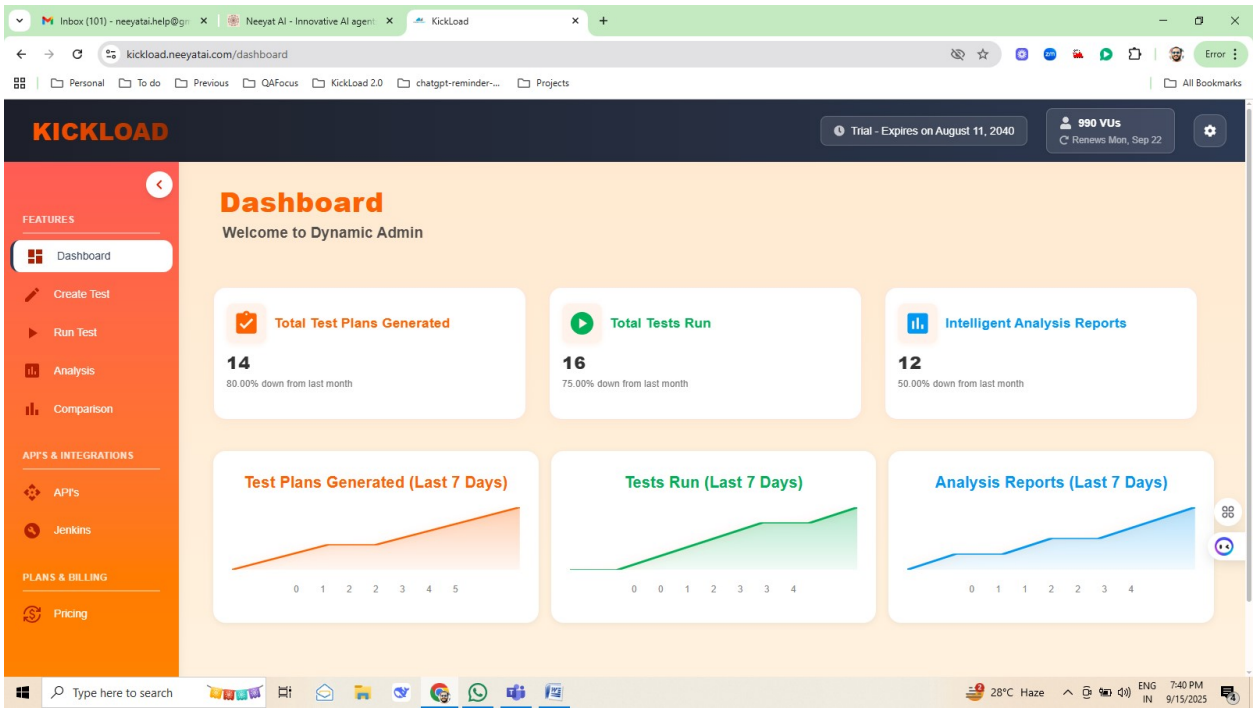
User Guide: KickLoad

Feature 1: Create test

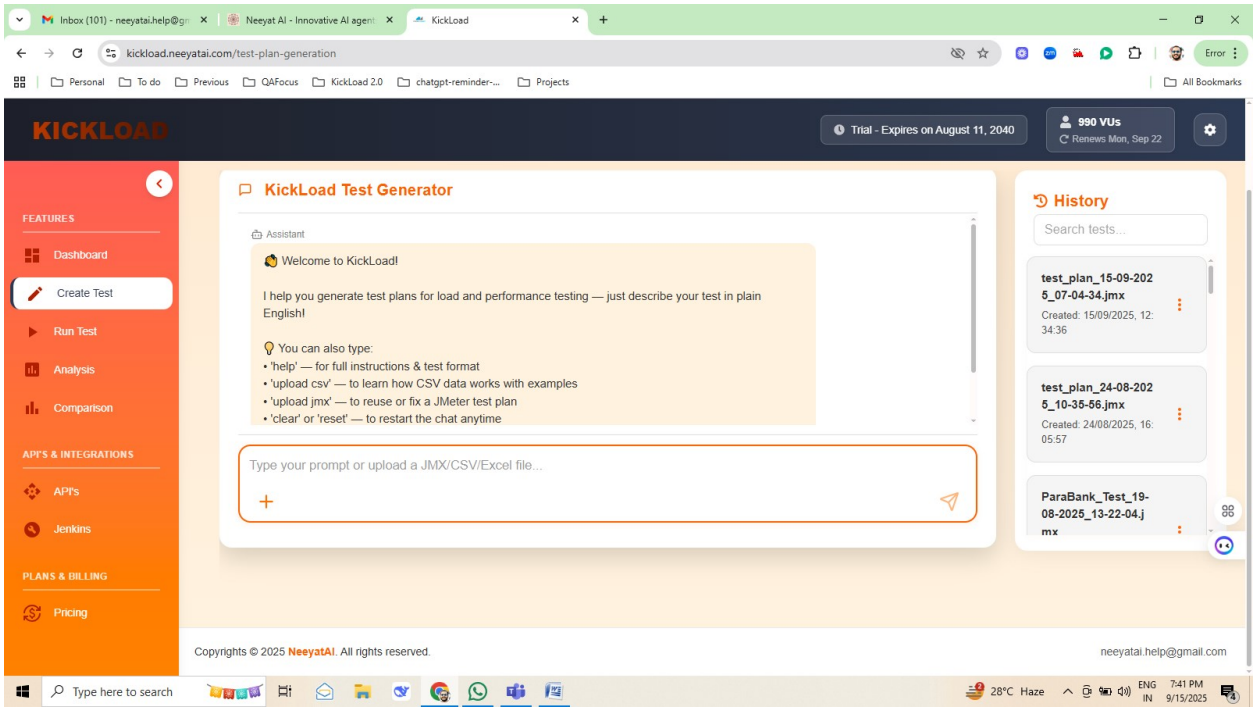
1. login from https://kickload.neeyatai.com/login (New user click on ‘Create account’)



2. Dashboard opens then it’s SUCCESS

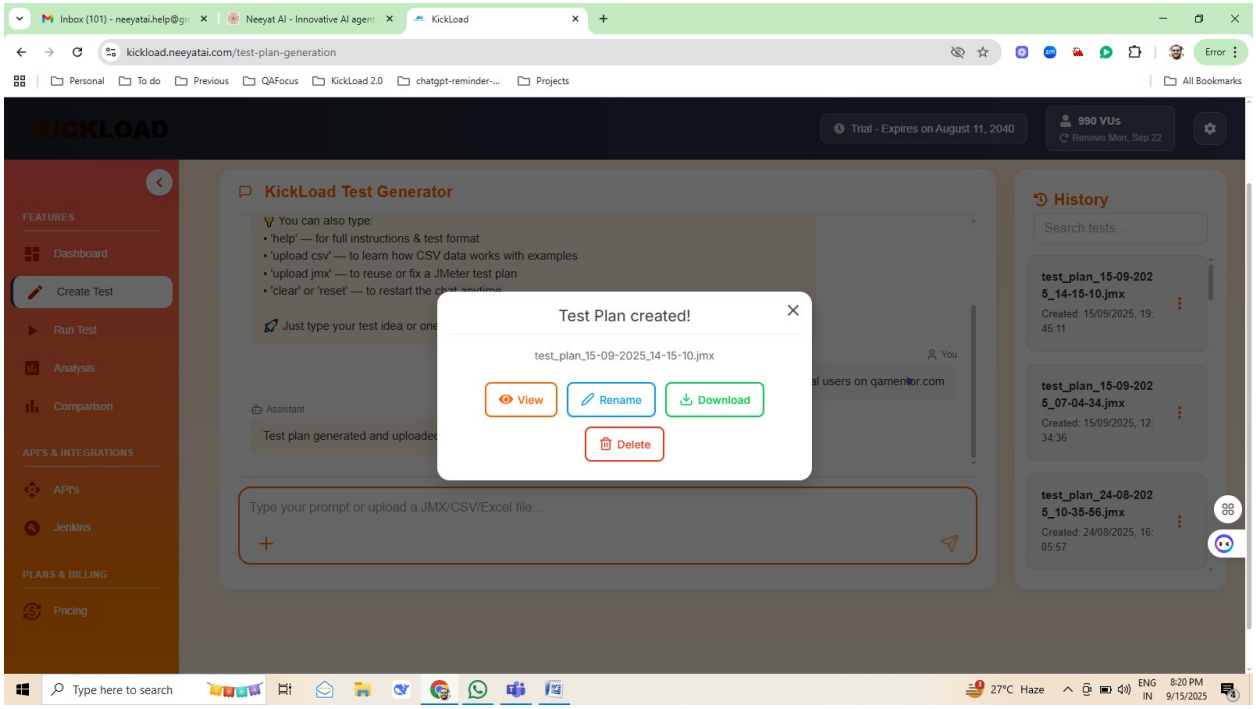


3. Click on ‘Create Test’



4. Enter prompt like “Generate 10 virtual users on qamentor.com”, Press Enter

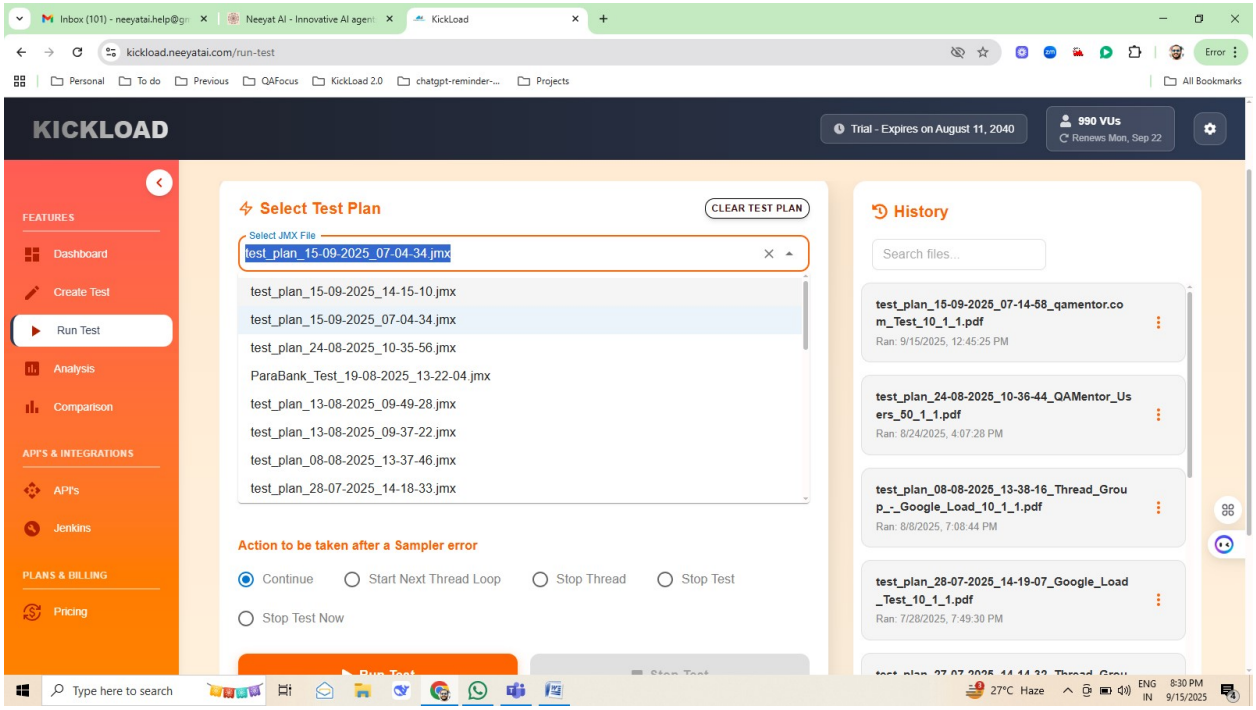
5. It will take sometime to generate test script, on completion you will see following screen:



6. Click on View, you can review jmx file created (Note: It’s highly recommended to rename file to your preference.)

Feature 2: Run test

1. Click on https://kickload.neeyatai.com/run-test
2. Select your jmx file (by default, newest jmx will come first)



3. Enter run test details (these are same Jmeter config's (If you done know config than run test as it is.)
